"GARDEN OF EDEN"

Seychelles

When you arrive in paradise found, you'll wish all your holidays always moved at the pace of the Seychelles famous resident, the Giant Tortoise.

Situated approximately 600 miles north-east of Madagascar, and 1,000 miles east of Kenya, the Seychelles are a group of more than 100 small islands in the Indian Ocean.

The four main islands are Mahe, Praslin, La Dique and Silhouette, and these islands are where the bulk of visitors stay.

However with a charter yacht at your disposal, these fantastic islands are yours to explore. The legend of the Garden of Eden becomes apparent when you see the most stunning beaches on the planet. Lush nature reserves and national parks spill down to the coast while birds soar overhead. Huge granite boulders thrust out of white sand lapped by turquoise sea. Gentle wafting of flipper clad feet will glide you across brightly coloured coral reefs teeming with tropical fish.
