

APS to showcase new Asia Pacific destinations at MYS

Published: 14 August 2015 Category:

Asia Pacific Superyachts (APS) has announced that they will be among the first-time exhibitors at this year's 2015 Monaco Yacht Show, which takes place from the 23rd to 26th September.

APS will showcase new Asia Pacific destinations at this year's MYS

An extensive representation from APS agent destinations throughout Asia and the Pacific will be at the APS QH28 Stand to share new information and meet with superyacht owners, captains, managers and other industry professionals.

Leading the APS Phuket and Myanmar region teams, Gordon Fernandes, co-organiser of the Asia Superyacht Rendezvous, reported agents will represent the Asia Pacific regions of Borneo, Cambodia, Fiji, Hong Kong, Indonesia, Koh Samui, Thailand, Malaysia, Maldives, Myanmar, New Zealand, Thailand Philippines, Seychelles, Singapore, Sri Lanka and Tahiti.

Fernandes explained, "It became important to us to have an opportunity to meet face-to-face with our past and future clients so we can help provide answers to owners and captains directly about cruising destinations and new regulations."

According to APS, they have taken care of 300+ superyachts over the last 15 years, and the APS director noted APS agents are looking forward to meeting up with many of their past clients at the show, as well as those interested in a first-time voyage or in returning to the Asia Pacific area.

Fernandes continued, "The APS Stand QH28 will share custom itineraries uniquely crafted of their regions by the APS network of superyacht experts. There's exciting new changes coming up for superyachts interesting in returning or cruising the Asia and Pacific areas. We'll be at MYS in force to share our new information and knowledge with our past clients and future clients." According to APS, videos playing at the exhibit will showcase the most thrilling and least visited spots on the planet, with APS agents ready to point out some of their secret anchorages, gorgeous cruising waters and new cultural activities while visitors enjoy cold refreshments.
