“GENTLE SHALLOW WARM WATERS,
RELAXED CHARM AND QUIET ELEGANCE”

Maldives

The Maldives is oozing with romance and peaceful seclusion, but is even more famous for the diving that is an absolute must for the enthusiast.

Only about one in ten of the coral islands are inhabited, usually by a luxury resort, but the ultimate way to experience the Maldives is by luxury yacht charter.

The incredible atolls provide a psychedelic blaze of fish and coral that will delight both the experienced diver as well as the languid snorkeller. The beaches are a dream for couples and young families alike, with their gentle shallow warm waters. Barefoot luxury or designer chic, the Maldives offers both with relaxed charm and quiet elegance.
