“ENDLESS COVES AND BEACHES”

Thailand

The 'Land of Smiles' is characterised by the warm, hospitable people and myriad islands with endless coves and beaches you can claim all to yourself.

Most charters focus on the Andaman Sea coast in and around the island of Phuket and Koh Phangan islands where high season runs from November until March, or cruise northwards to the diving meccas of the Surin and Similan islands.

A 'Jewel in the Gulf of Siam' off the eastern coast of Thailand, Koh Samui is part of an archipelago of more than 60 islands in the South China Sea. Fine silken sands, swaying coconut palms and calm waters are emblematic of this peaceful location with perfect cruising weather from April to October.

THE LAND OF SMILES

The sincerity and warm welcome of Thailand awaits along its limestone cliffs and rocky peninsulas. Gentle elephants lumber through tropical forests that are alive with waterfalls, parrots, and orchids. Translucent waters and pristine beaches offer the freshest seafood, prepared magnificently with the skill and flavours of Thai cuisine. Thailand's two cruising grounds, the Andaman Sea and the Gulf of Thailand, cover two seasons, here we explore Samui.
