Asia Pacific Superyachts Phuket expands headquarters

Asia Pacific Superyachts Phuket has moved to a brand new purpose-built office in Patong, Phuket in anticipation of more yachts visiting South East Asia. While the new offices offer increased facilities and staff to service the company's clients, general manager Gordon Fernandes notes that the company will continue to keep its APS office at the Yacht Haven Marina, central to all the yachting activities of the tropical island of Phuket, Thailand.

The new office provides extra facilities and services to visiting and resident superyachts. "Our brand new expanded offices will allow the

company to grow; we were running out of space in the old Patong office and we need to expand our charter and crew placement services. New staff are being recruited to support our new office which has been designed to feature extra conference, meeting and video conference facilities - all of which will make it easier for our clients to communicate to us and for our company to support our clients' needs", comments Fernandes.
