

'Top Gun' Guides with Asia Pacific Superyachts Indonesia

April 22, 2014

Asia Pacific Superyachts Indonesia provides the services of an experienced 'Top Gun' guide to superyachts cruising the azure waters of the breath-taking Southeast Asia yacht charter destination – Indonesia.

"Indonesia and its vast expanse of 17,000 islands is a 'must-see' world cruising destination and a top guide can ensure a spectacular cruise", reports **Asia Pacific Superyachts Indonesia**. The Superyacht agency is encouraging visiting yacht captains to, "Make your stay the best it can be while making your life easier by enlisting the services of an experienced 'Top Gun' guide during your time in Indonesia."

Captain Jimmy Blee of APS Indonesia explains, "It is one thing to have the pre-planned cruising itinerary we work together with Captains to produce before they arrive, however, to ensure the owners and/or guests' trip goes off with a high level of satisfaction along with meeting the fine details required in viewing and activities in the best locations, it is highly beneficial to have an 'on-board professional guide.'

Jimmy notes Superyacht cruising in Indonesia is a relatively new experience for local authorities and villagers alike, so the boats themselves tend to make quite an impression when they turn up in some of the more outlying locations. The skills of the on board guide again come forward here, to deal with this attention on the Captain's behalf and in an empathetic and culturally effective manner. Such interest can range from local police inquiring into the nature of the boat's presence in their area to local villagers in canoes wanting to sell fish to the visitors.

As an example, Captain Jimmy says, "While cruising in Papua the ADAT, or local customs [laws], see that villages actually own the water rights to their areas up to three miles off shore. The on board guide will skillfully negotiate in these matters if and when they come up. Our prime objective for our client boats is to ensure the Captains have as much support and care as we can give them", **Jimmy states**. "As we well know their jobs are already demanding, we can relive some of these demands with the on board guide, while at the same time show the vessel's owner and guests the best Indonesia has to offer." Owners and captains can rest assured the company has assembled some of the most knowledgeable, skilled and culturally sensitive guides the country has to offer, as outlined by APS Indonesia in the 'Top Gun' Guide listing profiled below
