Attention: MR Gordon Fernandez,
Asia Pacific Super Yachts Phuket

December 2009

Dear Gordon,

I would like on behalf of the owner and I to thank you for your tireless support and attention to Newcastle Explorer during our five year stay in Thai waters.

We have covered many miles and visited many countries and remote regions during this time, all of which would not have been as easily planned and implemented without your vast knowledge and attention to detail that you have gladly supplied.

You understand fully the vagaries of the Yachting industry and the freedom sought by owners and guests. Your help with Owner, guest and crew movements, bunkering and victualling, engineering supplies and services and visas issues has made it easy and affordable to have spent so long in Thai waters. At all times you managed to pull off the seemingly impossible so we could continue cruising with no problems or disruption to our schedule.

Your staffs excels under your guidance and have never been unavailable to happily help out regardless of the hour or request that we have called in from afar, including safety and rescue services.

I will not hesitate to recommend your services to any Captain of any vessel requiring a competent and honest Agent/ Event Manager to look after their needs whilst visiting Phuket Thailand.

Thank you again and I truly hope we may get to meet again during another visit to beautiful Thailand.

Kindest regards

Captain Edward Shiels,
M.Y. Newcastle Explorer.
