

Asia Pacific Superyachts Langkawi moves office & teams up with Royal Langkawi Yacht Club & Marina

November 2015 Issue

Asia Pacific Superyachts is now acting as the agent for yachts over 30 metres for the Royal Langkawi Yacht Club (RLYC). The exclusive establishment, with a beautiful marina situated on the mystical island of duty-free Langkawi, has added new berths in an extraordinary renovation and expansion of the entire marina. “We are thrilled to be part of the new Royal Langkawi Yacht Club & Marina, moving our Asia Pacific

Superyachts (APS) offices smack into the middle of the newly renovated RLYC, where we will continue to work with arriving superyachts”, enthuses APS Langkawi GM, Captain Charlie Dwyer.

Referring to the new arrangement with APS, the RLYC executive director Wicky Sumdran reports: “RLYC is pleased to have Asia Pacific Superyachts presence on Langkawi and in particular at the Club with our newly expanded and upgraded facilities. APS, with its extensive networking and professionalism in handling superyacht services, will provide the best services and facilities to visiting Superyachts to Langkawi.”

The Langkawi marina upgrade and expansion from 200-berths to a 250-berth marina includes 6-berths to accommodate superyachts; 4-berths for 60-70 metre superyachts and 2-berths for 80-90 metre superyachts yachts. The existing marina has been refitted with brand new electrical cables, new water pipes, fire-fighting system and new fuel dock system along with a newly planned pump out station. The redevelopment is targeted for the re-opening stages starting late November 2015 with full completion expected by end January 2016.

Fast becoming known as a superyacht refit hub in Asia is Boustead Langkawi Shipyard, reports Mr Dwyer, "We are working with the shipyard for yachts over 30 metres, bringing superyacht needs full circle in Langkawi and providing excellent refit service and facilities with great value for cost."
